## **KEYWORDS/AREAS OF INTEREST**

Acculturation, child health, health disparities, immigrant health, infant mortality, Latino health, low birth weight, perinatal outcomes, prematurity, socioeconomic status, academic affairs, faculty development, faculty misconduct, professionalism, salary equity

## **CLINICAL ACTIVITIES**

Throughout my career as a faculty member, I have maintained my clinical activities in pediatric primary care and pediatric asthma clinic at the Zuckerberg San Francisco General Hospital. My primary care practice involves care for healthy patients as well as a large group of high-risk, special needs children. Nearly all my patients are Latino children and children in immigrant families. I supervise in asthma clinic and provide specialty care for publicly-insured pediatric patients who are referred from the Zuckerberg San Francisco General and other public health clinics.

## CONTRIBUTIONS TO DIVERSITY

### CONTRIBUTIONS TO DIVERSITY

Diversity, equity, and inclusion are central to my academic work. As a bicultural, bilingual Latina physician and researcher, I have focused my scholarly work on the impact of ethnicity and acculturation on health outcomes. As a leader in Pediatrics and in the School of Medicine, I have been involved in many efforts to promote diversity and inclusion at the departmental, institutional, and organizational levels. As a faculty leader at the Zuckerberg San Francisco General Hospital, I am proud to have recruited and supported a diverse group of faculty and staff. Currently, 19% of the Pediatric faculty at the Zuckerberg San Francisco General Hospital are underrepresented in medicine, approximately three times higher than the proportion of underrepresented faculty in the department. Over my ten-year service as a leader I have recruited nearly all our underrepresented faculty members and our service promotes diversity and inclusion in every aspect of academic life.

## TEACHING AND MENTORING

### INFORMAL TEACHING

- 1993 - Medical Student Clerkship Preceptor
- 1994 - 2000 Introduction to Clinical Medicine Preceptor
- 1997 - 2004 Residents' Journal Club Preceptor
- 2001 - Pediatric teaching conferences
- 2003 - 2004 Epidemiology of Early Childhood Mortality lecture

### MENTORING SUMMARY

I have been actively involved in mentoring throughout my career. Mentoring is an activity that I enjoy and in which I am heavily invested. As the beneficiary of outstanding mentorship, I understand the impact of mentorship and strive to be an effective mentor.

Currently I mentor every Pediatric faculty member at the ZSFG, our chief residents, and faculty members at UCSF as well as other institutions. I have acquired new mentoring relationships through "Meet the Professor" sessions at the Pediatric Academic Societies' Annual Meeting and the APA RAPID program, which focuses on underrepresented junior faculty members. In 2019 I hosted a discussion of diversity and success in academic pediatrics at the meeting of the Pediatric Academic Societies. For the last five years I have served as co-chair of the American Pediatric Society's Career Support Committee, which promotes mentoring for pediatric leaders.

## RESEARCH AND CREATIVE ACTIVITIES

### RESEARCH AND CREATIVE ACTIVITIES SUMMARY

For twenty-five years, my research in perinatal epidemiology has focused on health disparities in perinatal outcomes and the impact of acculturation on health outcomes. I have also studied health disparities related to other health outcomes, including adult health outcomes, through research collaborations with colleagues such as Dr. Christina Mangurian in the UCSF Department of Psychiatry. After I joined the Dean's office in 2012, my scholarship has expanded to include issues such as professionalism, misconduct, and sexual harassment. In recent years I have collaborated with Pediatric colleagues at other institutions to address topics such as organizational strategies to address disparities and the promotion of child health.

### RESEARCH AWARDS - CURRENT

1. Co-Investigator Bardach, NS (PI)

AHRQ 03/01/2020 02/28/2025

The Family Input for Quality and Safety (FIQS) Study

My role is to contribute my expertise in health disparities and Latino health to the development of study materials and the study protocol. I will also assess the cultural competence and linguistic accuracy of the Spanish translation of the study materials
